Student Evaluation Forms & Recommendation Letters:

The Student Evaluation Forms should be distributed to each of your four (4) evaluators. A minimum of three must be Davidson faculty members with two from the natural sciences (biology, chemistry, neuroscience, physics & math). Your fourth evaluator may be a Davidson faculty/staff member or some other person who has knowledge of you through some special accomplishment (e.g., physician, research scientist, or employer).

All recommendation letters are seen not only by the Premedical Advisory Committee (PAC) but also by admissions committees of your selected medical/dental schools. The evaluators/letter writers are your emissaries. It is important that evaluators not only check the boxes on the form, but also give a written evaluation.

My four (4) evaluators: (you may have more than four, no more than six)

1. ______________________________________________________________________
   Davidson College, Natural Science Faculty

2. ______________________________________________________________________
   Davidson College, Faculty

3. ______________________________________________________________________
   Davidson College, Faculty

4. ______________________________________________________________________
   Give address if not a Davidson faculty
   
   ____________________________________________
   ____________________________________________

5. ______________________________________________________________________

6. ______________________________________________________________________

Email this completed form to the Program Coordinator, Amber MacIntyre, at ammacintyre@davidson.edu.
