

Davidson College Commercial Photography Policy states that commercial photography may be accommodated only in limited circumstances when scheduled by a member of Guest Services. Unscheduled portrait and still life photography of a commercial nature is not allowed on the campus. Campus Police will ask photographers without a scheduled appointment to leave campus. Commercial photography requests of a business nature will be considered according to the policy governing Non-College Activity. Please refer to <https://www.davidson.edu/offices/guest-services/photography> for more information.

All commercial photography requests shall be first reviewed by College Communications to protect college landmarks from being used inappropriately. Following approval from College Communications, the standard selection criteria for assessing Non-College Groups' requests shall be followed.

Please provide a description and date of activity to be reviewed by our administration. Commercial photography sessions such as wedding portraits (or any other personal portrait or still life photography) will be accommodated at no charge for the following.

**The description should include campus location, time of shoot, and the date:**

Description & Date of Activity: \_\_\_\_\_

\_\_\_\_\_

Please check if any apply:
