Click either of these boxes to bring up the filter window.

These three columns show the MAXimum number of students allowed, the CURRent enrollment, and the seats REMaining.

Notes provide additional information about classes. “12+” indicates the section is only open to first- and second-years until the first day of classes. For a complete list of possible notes, see the Course Notes page.

This column explains which Graduation Requirements are fulfilled by each course.

Sometimes the same course is taught under two subject codes. A title like this indicates that one should register for the course using the Physics CRN and not Environmental Studies (ENV).

A common question is, “Can a first-year take a 200- or 300-level course?” and the answer is yes, but look for the PRQ note. This means there is a prerequisite and the description should be consulted.

The Course Reference Number is what is entered into WebTree when selecting courses.

This course is listed twice because it has two meeting times (a lab). Notice both rows have the same CRN, and just needs to be entered once into WebTree. The lab is indicated by the 0 in the CREDit column.

These are the meeting days. Of note, “R,” not seen here, represents Thursday.

These are the instructors. If “Staff S” is listed, it indicates the course is being offered but does not yet have a professor assigned.
